Revolutionizing Flexible Space

Uniting Acoustics, Flexibility and Design

Skyfold is the acoustic leader in vertically folding retractable walls. Skyfold walls are more than just space dividers: they are innovative, custom, automated and premium multipurpose space solutions that allow architects, interior designers, contractors and end-users to redefine how a space is used.

Andaz Hotel - Singapore
Skyfold Classic 55™
Architect / Interior Designers: AFSO

When square footage and revenue are intertwined, you need to ensure that every inch of a client's space is used to the fullest. At a touch of a button, the Skyfold wall unfolds from the ceiling to transform your space in a matter minutes without any manual labor. Depending on configurations, you can sub-divide the biggest spaces into two or more smaller venues to accommodate multiple events at the same time.

Skyfold walls can be a signature part of your design and a showpiece. Hotel and event planners can use the Skyfold wall during parties and corporate product launches to reveal a surprise hidden on the other side.

Architect / Interior Designers: Bar Napkin Productions

A picture can be worth a thousand words

With the ability to add graphics and murals, the walls can also be show-stopping works of art that are custom tailored to the needs of the user. Having the freedom to design the perfect visual that complements a fresh and functional new space just takes it all to the next level, and Skyfold's vast collection of standard, specialty and custom wall finishes is yours for the taking.

It's all possible with Skyfold's team of creative consultants who are waiting to help you realize your ultimate vision. It's time to let your imagination run wild!

Pfizer Tenant Infill Memphis - Memphis, Tennessee, USA
Skyfold Classic 55™

Vertical Innovation

Flexibility not only means the flexibility to reconfigure spaces, but also freedom in design. Look through our gallery of Skyfold operable walls installed all over the world for design inspiration and installation ideas for your next flexible space project. You can filter by application (such as offices, hospitality, intersecting walls) or by finish option.
