LINE SYSTEMS

PA 100

TECH SHEET

PA 100

PA 100 was developed according to the principles of modern partitioning. It is a versatile structure that allows for a wide range of finishes, modulation solutions to make it the perfect solution for unique and dynamic spaces.

It offers off-site construction, endless modularity and ease of installation, high acoustics and reusability.

TECH DATA

TYPE
Modular Opaque Wall

PANELS
19mm (¾") MDF / Chipboard Panels finished in melamine, HPL or Wood Veneer

MODULE TO MODULE CONNECTION
Line Systems Clip & Fix system

TOLERANCE
10 to 20mm (3/8" to 13⁄16")

MODULATION (HEIGHT)
46 dB version - up to 3500mm (11' 6")
53 dB - up to 2800mm (9' 2 ¼")

DOOR OPTIONS
50mm (2") Opaque Door | 10mm (⅜") Single Glass Door | 50mm (2") Double Glazed Door | 50mm (2") Framed Single Glazed Door | Glass Skin Door

ACOUSTIC PERFORMANCE
46 dB with 19mm (¾") panels and 40kg/m^2 (8.2 lbs/sq. ft.) rock wool

53 dB with 19mm (¾") panels, 75 kg/m^2 (15.3 lbs/sq. ft.) rock wool and MAD 4 membrane.

DOORS

50MM(2”) DOUBLE GLAZED DOOR

50MM (2”) OPAQUE DOOR

GLASS SKIN DOOR

50MM (2”) FRAMED SINGLE GLASS DOOR
